Profile

I magnify my creativity and skills to create innovative media destinations focusing on positive user experience & visually compelling, interactive designs. At the intersection of art and technology I love the problem solving process and make the web a prettier place with aesthetically brilliant & intuitively usable destinations.

Skills

Interactive

Create simple designs from complex situations to provoke experiences that are not only memorable but also edifying.

Front End

Fresh with current technology solutions & consistently produce usable, clean & valid code.

Flash Developer

Innovative, interactive actionscript to employ animated, responsive elements for an enhanced experience.

Technical

Actionscript (3 & 2)
