## Profile

I magnify my creativity and skills to create innovative media destinations focusing on positive user experience & visually compelling, interactive designs. At the intersection of art and technology I love the problem solving process and make the web a prettier place with aesthetically brilliant & intuitively usable destinations.

## Skills

### Flash

Devise interactive solutions which integrate animation, information & responsive elements for enhanced user experience.

### Creative

Create simple designs from any situation to provide experiences that are not only remarkable but also edifying.

### Web Design

Implement current technology solutions & consistently produce usable, clean, durable & valid code.

## Technical

Actionscript

Flash

WordPress

HTML

Dreamweaver

Magento

CSS

Photoshop

Drupal

Javascript

Illustrator

## Experience

### Flash Developer/Web Designer

2010.08 - today

RedWorks *Subsidiary of Ogilvy & Mather*

Design & code interactive elements for web including banners and microsites. Develop clean & usable assets with a focus on actionscript programming & animation. Proactively simplify agency workflow with clarity and organization.

### Interactive Designer/Developer

2009.11 - 2010.08

Cornerstone Media Group *Web Design Agency*

Web design and consulting for a myriad of clients. Interactive designs involving video, animations and ecommerce. Carrying projects from understanding client needs, to concept, design, coding & finally site launch. Completely restructure internal processes and workflow from a client perspective to make the whole process more transparent, more simple and in the end more effective.

---

Interactive Designer/Developer 2007.06 - 2009.11

StomperNet *International leader of SEO, Internet Marketing and e-Commerce training.*

Graphic and user experience design & actionscript coding for custom flash video delivery schemes. Visual & interaction design of public facing websites. Programming valid html/php/css and deploying websites through svn version control. Design and develop interactive elements and styles for web.

---

Production Assistant 2007.01 - 2007.05

Cartoon Network New Media *Home to your favorite cartoons, videos and free games*

Quality Assurance of online presence including: web sites, video, events. Organization of huge amounts of digital assets into database in preparation for massive multi-player online role-playing game. Optimizing graphics for online usage, iterations with online game assets and maintenance tasks.

---

*Education*      The University of Georgia - Athens, Georgia 2007.05  
BFA — Digital Media Art
